County Convention Tuesday.

On Tuesday, May 10th, at 2 p. m., the Democrats of Bourbon will meet in mass convention for the purpose of selecting delegates to the convention to be held at Lexington, Ky., on Thursday, May 12, to nominate a Democratic candidate for Congress from the Seventh Congressional District. Let every Democrat in the county be present to give our candidate, the Hon. C. M. Thomas, a good send off. Of course, there will be no opposition to instructions, at the same time your presence at the convention will doubly insure Mr. Thomas that old Bourbon is for him first, last and all the time. He is conceded by some of the shrewdest politicians in the district to have the best chance for the nomination of all the candidates. It would indeed be an honor to old Bourbon to have this worthy son to represent her in the halls of Congress.

## THRO' KENTUCKY.

Thro' the grand state of Kentucky, Where the "Old Home" got its name, Where the fields are overflowing With the yellow ripening grain.

Here tobacco plants are growing, In the fields not sown with corn, Tobacco plants—big as cactus— Just as sure as you are born.

Yes, they're large as good-sized cactus, Larger in our home-like view, But it's a fine a grade as Is that old "Kentucky Dew."

Here all people reap a harvest, Money in bank from year to year, All the green calamity howlers, Lose their jobs when they land here.

Here the "dry" ways are the highways, Built high and dry from rains and flood. Here the "good roads delegation," Sweep the roads are suitably good.

But of pikes and highways finest, There's a "road" that suits my taste; 'Tis the line of Solid Comfort, And the trains let no time waste.

From Kentucky to St. Louis, Operates this road of class, Across the famous old "Green River" On its roadbed smooth as glass.

Would you know the road I speak of? Listen then to my advice, For you'll need it in your business, On your trip to Paradise.

In your travels to St. Louis— Hustle; beat them under the wire, "Get the 'Henderson Route' habit"— 'Tis a good one to acquire.

—[Jack "Henderson" Gallagher]

## TWO BIG STRIKES.

Many Boiler Makers in Ship Yards Go Out.

A Strike to Extend to an International Movement Against the American Bridge Co. Has Been Ordered by Pittsburg Unions.

New York, May 5.—All the large ship yards in the Metropolitan district, except that of the Boston Dry Dock Co., in Brooklyn, and the yard of Titten & Lang, in Hoboken, are tied up as the result of a strike of the Brotherhood of Boilermakers and Iron Ship-builders of the United States and Canada. Five thousand boilermakers are involved and workmen of other trades may be affected. John McNeil, of Kansas City, international president of the boilermakers, authorized the strike. The organization is said, to have \$250,000 in its relief fund and the 12 local lodges are also well supplied with money. Beginning Wednesday married men will be paid \$7 a week and single men \$5 a week, out of the strike fund. Preparations have been made for a long struggle.

The yards and shops affected are those whose officers are members of the New York Metal Trades' association, which body Tuesday refused to grant the boilermakers' demand for the closed shop and the admission of walking delegates to all shops and jobs.

In the yards of the Morris Heights Shipbuilding Co., at Morris Heights, 300 men who had been employed in building two torpedo boats for the government, quit work.

Pittsburg, Pa., May 5.—A strike which is expected to extend to an international movement against the American Bridge Co. was ordered Wednesday by the local union of Structural Iron Workers and Bridgemen and over 600 men in this district will go out.

The strike is called because the union claims 35 non-union men were put to work last Tuesday erecting a bridge for the Buffalo, Rochester & Pittsburg road at Coral, Pa. This action, it is claimed, is a violation of the agreement to employ none but union men. President Frank Buchanan notified the local union officials here Wednesday that the bridge company refused to rectify the matter and said the executive board would meet immediately and issue a strike order against the American Bridge Co. The order will affect all work being done by the company throughout the United States and Canada.

Chicago, May 5.—Fifty thousand workmen employed in the building trades in Chicago will be thrown out of work within 48 hours, according to the statement of the officials of the Association of Manufacturers and Dealers in Building Materials unless a speedy settlement is reached between the stone, lime and cement workers and street workers and their employers. Nearly 1,000 teamsters hauling building and street work material were locked out Wednesday because the union had called a strike in two cases, and work on a number of buildings was stopped because the supply of building material had been exhausted.

CHICAGO, May 5.—The only information the department of state has touching the reported friction between Mexico and the state of Texas over the question of cattle quarantine is contained in a short telegram from United States Consul General Hanna, at Monterey, saying that Texas has threatened a quarantine against Mexican cattle, that the Mexican cattle are free from disease and that the proposed action might lead to retaliation. The matter may involve an interesting question as to the supremacy of state and national quarantine laws. The department of agriculture, through the bureau of animal industry, probably will take part in the investigation likely to be made.

ALLEGED FALSE ENTRIES.

Angle, Sprinkle and Young Convicted of Defrauding the Government.

Charlotte, N. C., May 5.—A verdict of guilty was rendered Wednesday in the United States court in the cases against T. M. Angle, B. F. Sprinkle and William Young for defrauding the government by false entries in connection with the payment of taxes on whisky. Sprinkle was fined \$5,000 and sentenced to two years' imprisonment; Angle \$1,000 and one year, and Young \$1,000 and six months. An appeal was taken. A. J. Davis, the government gauger, who some time ago was convicted of making false returns in connection with these alleged frauds, was given 18 months' imprisonment and fined \$1,000. Judgment for \$20,000 also was assessed against him and suit will be brought for the amount against his bondsmen.

NATIONAL LIBERTY PARTY.

St. Louis, May 5.—The executive committee of the national liberty party Wednesday completed arrangements for holding a national convention here on July 6. The party is composed of Negroes throughout the country.

Can Enter the Field Meet.

Stanford University, Cal., May 5.—The varsity track team has received a telegram from Chicago stating that it will be allowed to enter the field meet which will be held at Marshall Field, Chicago, on June 4 next.

Historic Land Mark Burned.

Fond Du Lac, Wis., May 5.—The pioneer homestead of Gov. Nathaniel P. Tallmadge, of Wisconsin territory, situated a few miles east of this city, was destroyed by fire Wednesday. It was a historic land mark.

## EXPLOSION IN A POWDER MILL.

Four Men Were Killed Instantly and Two Were Seriously Hurt.

Newport, Ind., May 5.—A powder mill owned by the Northwestern Powder Co., three miles from Newport, was blown up Wednesday. Four men were killed outright and two were injured.

The dead are: Desota Briggs, Albert Mayhew, George Mayhew and Henry Griffin.

The injured: Quincy Foster and M. L. Taylor.

Ten thousand pounds of powder exploded and the bodies of Briggs and Griffin were blown into such small pieces that they could not be picked up. The other bodies were not badly mangled. The injured men will recover.

The mill was two frame buildings situated in a hollow about one-half mile long. One building was known as the Glaze mill, where the explosion occurred, and the fire spread to the Corning mill. The loss was \$7,000.

## TO DISPELL ILLNESS.

The Igorrotes Resorted to a Dog Killing Ceremony.

St. Louis, May 5.—The Igorrote tribe from the Philippine islands at the World's fair Wednesday resorted to a dog killing ceremony for the purpose of dispelling illness from a woman member of the tribe. Dangusan, a Suyoc Igorrote woman, has been ill for several days and the other members became anxious lest she die. Wednesday Byungsan, chief of the Suyocs, was petitioned to do something to help her recovery. Chief Byungsan killed a dog as an offering and held a ceremony of weird incantation over the carcass which was then singed. The dog was later roasted and carried to the tribe of Bantocas, whose members devoured it while the Suyocs dined on chicken, all the time chanting some peculiar ceremonial strains. After the feast which concluded the ceremony the woman Dangusan, arose from her couch and declared she felt much better.

## ILLINOIS MONUMENTS.

Program For the Exercises Attending the Dedication at Shiloh.

Springfield, Ill., May 5.—The program was issued Wednesday for the exercises attending the dedication of the Illinois monuments on the Shiloh battlefield, May 17. Capt. Gustav A. Busse will present the monuments to the governor, who will accept them on behalf of the state and transfer them to the government. The speech of acceptance on the part of the government will be made by Col. Cornelius Cadle, chairman of the national committee. Addresses will also be made by United States Senator A. J. Hopkins, of Illinois, and Judge Lawrence Y. Sherman, of Macomb, Ill.

## THE AMERICAN DENTIST.

German Supreme Court Forbids the Use of the Title "Doctor."

Berlin, May 5.—A decision of the imperial supreme court forbids the use of the title "doctor" when granted in the United States or the designation "American dentist" as being in contravention of the law concerning unsuitable competition in business as American dental schools are not state institutions. It is probable that the decision will not seriously affect American dentists with American names.

Three hundred dentists with diplomas received in the United States are now practicing in Germany.

## LOUBET'S VISIT TO ROME.

The Vatican Considers It a Grave Offense Against Its Dignity.

Rome, May 5.—The Observatore Romano, the vatican organ, publishes an official note saying that the holy see considers President Loubet's visit to Rome as the gravest offense against its dignity and rights, and, therefore, has sent to the French government a formal and energetic protest, which has been communicated to the other governments in diplomatic relations with the vatican.

## THE CANAL IS OURS.

Formerly Received By Maj. Gen. Brooke For the United States.

Panama, May 5.—The formal act of turning over the Panama canal to the United States government was performed with much ceremony at 7 o'clock Wednesday morning. The canal was received by Maj. Gen. Brooke and staff, on behalf of the United States. Consul General Gudger and other prominent Americans witnessed the ceremony, which concluded with the raising of the American flag.

## SAM PARKS IS DEAD.

## "I Think I Know."

Salesville, Ohio, May 2nd.—There is a Civil War veteran in this place who is very positive in his way and when he makes a statement everyone knows he means it and that it is true. His name is Mr. J. Stephens, and he has written for publication the following letter:

"I have been a sufferer with Kidney Disease since the Civil War. Sometimes my back would hurt me so that I could not dress myself for weeks. I took a few boxes of Dodd's Kidney Pills and have found great relief. They have done me a great deal of good."

"The general health is much better since using Dodd's Kidney Pills. I can recommend this remedy to be the best thing for the Kidneys that is on the market. I have taken a heap of medicine for my back and kidneys and I THINK I KNOW WHAT HELPS ME."

"I am 63 years old and was through the Civil War as a soldier."

## ANNOUNCEMENTS.

We are authorized to announce Claude M. Thomas, of Bourbon, as a candidate for the Democratic nomination for Congressman from the Seventh District, subject to the action of the District Convention to be held in the city of Lexington, on Thursday, May 12, 1904.

## Democratic Mass Meeting.

The Democrats of Bourbon county, by order of the Democratic Committee of the 7th Congressional District, will meet in mass convention on Tuesday, May 10th, 1904, at 2 o'clock p.m., for the purpose of selecting delegates to the convention to be held at Lexington, Ky., on Thursday, May 12th, 1904, to nominate a Democratic candidate for Congress from the 7th Congressional district. The meeting will be held in the old Christian church building. GEO. W. MCROBB, Chairman. R. K. McCARNEY, Secretary.

## Republican State Convention.

John W. Yerkes, Commissioner of Internal Revenue and President Roosevelt's personal representative in Kentucky, whipped into line that portion of the Republican party which is opposed to the office-holding machine and completely dominated the Republican State Convention in Louisville Tuesday. The platform adopted was a false panegyric on President Roosevelt, for whom the delegates were instructed to vote at the National Convention in Chicago. Mr. Yerkes was made permanent chairman without opposition, after which ex-Gov. W. O. Bradley, R. P. Ernst, George W. Long and E. E. Underwood, colored, were elected delegates-at-large to the National Convention. Col. Morris F. Belknap, late Republican nominee for Governor of Kentucky, was mentioned only once during the convention.

The following delegates were in attendance from Bourbon: J. L. Earlywine, H. T. Ingram, Wright Larkin, Andrew Gorye, W. L. Yerkes, Jas. McClintock, J. M. Russell, A. W. Cottingham, Gray, Perry Hutchcraft, Wyatt Thompson, Dewes Grant.

The new Republican State Central Committee organized by electing R. P. Ernst, of Covington, Chairman; George W. Welsh, of Danville, Vice Chairman, and Clint McClintock, of Louisville, Treasurer. The election of a Secretary was postponed. C. M. Barnett retired as Chairman, after eight years' service.

## Mr. Bryan's Chicago Speech.

Mr. Bryan seems to have had a pleasant meeting in Chicago Saturday night and he gave his views of the platform adopted by the New York Democrats last week. From the reports sent from Chicago Mr. Bryan evidently felt that he was justified in offering a few friendly criticisms—more, we take it, on account of the matters omitted from the New York declaration than because of the things included in it. So far as the latter are concerned they are entirely unobjectionable as far as they go. We do not understand that the New York convention had any intention of anticipating the action of the national convention. It was probably for that reason that no reference was made to matters concerning which there may be reasonable grounds for difference of opinion. Such questions, of course, are open to discuss at any time by any Democrat, but they must be settled in the convention at St. Louis. There seems to have been both wisdom and moderation on the part of the New York Democrats in confining their platform to brief pronouncements upon questions about which they might have supposed there would not be two ways of thinking. This is a year when the party must speak as a whole, once and finally, so far as concerns this campaign. It can only do that at St. Louis. No individual and no State can settle the national platform prior to that. Therefore everyone should keep cool and remain good natured. It will be time enough to warm up when the convention meets, and there really will be little trouble about it then. There is nothing frigid about St. Louis in July.

WANTS A DIVORCE.—Mrs. Anne Tarleton Barbour Duncan filed suit Wednesday at Louisville for divorce from Dr. Ellis Duncan, alleging abandonment. Mrs. Duncan is now living in St. Louis. On October 21, 1902, Duncan, who was then Superintendent of the Louisville City Hospital, shot Bruce Head at a railroad camp near Pittsburgh. He alleged that Head had had improper relations with his wife. Dr. Duncan was acquitted after a short trial at Pittsburgh. A. J. Bigot, Dr. Duncan's attorney, said that no contest would be made. Mrs. Duncan is well-known in Paris, having been a frequent visitor here.

POWERS CASE.—Briefs for the Commonwealth and defense were filed in the case of Caleb Powers in the Court of Appeals Wednesday, and the case submitted. Attorney-General Hays wrote a most exhaustive brief for the Commonwealth, consisting of fifty pages of typewritten matter. One of the grounds relied on for reversal by the defense in the lack of time to file grounds for a new trial.

GOOD PRESIDENTIAL TIMBER.—The ablest man that has developed in Congress for many years is John Sharp Williams, of Mississippi, the Democratic floor leader. If he lived north of the Mason's and Dixon's line he would be first-class presidential timber. Mr. Williams married in Bourbon county, a number of years ago, Miss Webb, a governess in the home of the late Mr. Henry Buckner.

AMUSICAL TREAT.—Rehearsing is now in progress for a musical entertainment that will be a rare treat to our music-loving people in the near future. The entertainment will be for the benefit of the First Presbyterian Church, the fund to be used for the purchase of a pipe organ for that church. The rehearsing is under the direction of Dr. Frank Fithian, and it is needless to say it will be a success.

## Burglars In Town.

Thursday morning about 3 o'clock the residence of Mr. E. L. Harris, on 8th street, was visited by burglars. They effected an entrance through a window in the hall, and, although a lamp was burning brightly, entered the sleeping room of Mr. and Mrs. Harris, securing his gold watch and charm and \$1.25 in money from his pants which hung on a chair close to his bed. They then moved over to a bureau where they secured a valuable pin belonging to Mrs. Harris. At this moment Mrs. Harris suddenly awakened and realizing some unwelcome stranger was in the room, with rare presence of mind, called to her husband for a glass of water. At this the intruder made his way out of the front door and was lost in the darkness.

Mr. Harris in a few minutes discovered his losses and stepping to the phone called up Chief of Police Hill. The Chief responded in less than 15 minutes, accompanied by his well-trained pair of bloodhounds, but for some unaccountable reason the dogs failed to take up the scent.

As the street fair is in progress and many strangers in the city, The News would urge upon all citizens, not to leave their premises unguarded during the early evening hours and to see that all doors and windows are securely locked and fastened when they retire at night.

## Wake Up! Wake Up!

Feeling that this is time that some action should be taken by our business men in regard to Interurban roads to North Middletown and Millersburg, we again urge the president of the Commercial Club to call a meeting of the club without further delay. If the officers of the club have not the welfare of Paris at heart, they should at least let us know their names, and if the old club does not desire to take these matters up, we will take it upon ourselves to call a meeting of our business men and organize another Commercial Club. It is the time to act for the business interest of this community, and a delay in this matter is surely going to work harm to our town. Let's be up and doing, as other towns are. This is a day of push and enterprise, and if you are not on the alert you will certainly be left at the post.

## Much Needed Improvement.

Work was begun yesterday near Hotel Windsor, by the Paris Gas Co, laying mains for the city. This is a much needed improvement, as the main now in use has been down since 1866. This work will be pushed until all of the old main is replaced by new, and we understand larger, After this is finished and the few property owners who have not tapped the sewer are made to comply with the ordinance in regard to sewer tapping, work will begin on paving Main street.

J. B. Nortcott to A. J. Hornback, a lot on Lillestone avenue, for \$350.

Brice Steele to W. M. Berry, 16 acres of land for \$1,395.

J. T. Tate to John Trabue, interest in land, for \$228.85.

## No Patch Work Hereafter.

The Bourbon Fiscal Court was in session yesterday and a parrot and monkey were had for several hours. It seems the court was called together by Judge Smith in regard to some patch work that was being done on the new court house.

Several of the large stones had been broken by the falling derrick, and the building committee had given its consent for the contractors to patch it.

After several of the Magistrates contradicting one another for about an hour about what each had said and about what somebody else had said, it was by a unanimous vote decided that NO MORE patch work would be allowed in the future on the new building.

## A New Club Organized.

We hesitate to publish about the organization of a new club in Paris, as it was a mere accident that we heard of it, but we propose to give the news and can not let this go by. It is a sure enough secret organization, and for the sake of harmony in a number of our happy homes, we refrain from giving the names of the members. About twenty of our leading business men met on Wednesday night, while their better halves were attending prayer meeting, in the rear of one of our Main street stores and organized the Married Men's Anti-Euchre and Home Preservation Society. They resolved, and declared it was high time their wives and other men's wives were cured of the progressive euchre habit, and propose to use all their efforts to establish such a cure.

Several letters from Georgetown, and other neighboring towns were read endorsing the movement. How we would like to give the names of the officers elected, but we dare not, as we only have a limited amount of life insurance.

GEO. MCWILLIAMS.

The gentleman who was elected President of the club in taking the chair said: "It is high time we assert our manhood and make a determined effort to down this habit which threatens to wreck our homes. Many a night I have had to walk the floor with the baby until 2 or 3 o'clock waiting until my wife returned from a euchre party. It has got so the clubs meet every afternoon and evening and are now talking about playing on Sunday."

Other men spoke in a similar vein and resolved to curb the popularity of euchre by every means in their power.

We want it understood that we are in sympathy with the ladies in this matter, and positively refused to join this club. We talked to several of the members and they declared that they were determined to "down the euchre winds who threaten to break up their homes."

## Good Work Saved Building.

The Fire Department was called out about 10:30 yesterday morning to extinguish a fire which had gained considerable headway at the residence of Mrs. A. P. Allis, on Duncan avenue. The fire in some unknown manner started under the roof, which was in a big blaze when first noticed, and the heroic work of the fire laddies saved the house from burning to the ground. They were again handicapped at this fire by not having a ladder long enough to reach to the roof of a two-story building. One of the Councilmen was looking on and remarked: "Are they the only laddies the fire department have?" And when told they were, he said: "It's a d—m shame." Still this gentleman will attend meeting after meeting of the Council and not bring the matter up.

The house was occupied by Mr. and Mrs. J. Smith Clarke as a boarding house, which they had just fitted up in nice style and had it well filled with boarders. It is harder on them than anyone else, as everything was soaked with water and they had no insurance. Mrs. Allis carried \$2,500 on the house and \$500 on furniture, which will more than fully cover her loss.

SATURDAY you will get anything in vegetables, berries and fruits at V. K. Shipp's.

A Continual Strain.

Many men and women are constantly subject to what they commonly term "a continual strain" because of some financial or family trouble. It wears and distresses them both mentally and physically, affecting their nerves badly and bringing up liver and kidney ailments, with the attendant evils of constipation, loss of appetite, sleeplessness, low vitality and debility. They cannot, as a rule, get rid of this "continual strain," but they can remedy its health-destroying effects by taking frequent doses of Green's August Flower. It tones up the liver, stimulates the kidneys, insures healthy bodily functions, gives vim and spirit to one's whole being, and eventually dispels the physical or mental distress caused by that "continual strain." Total bottle of August Flower, 25c; regular size, 75c. At all druggists.—W. T. Brooks.

Healthy Mothers.

Mothers should always keep in good body health. They owe it to their children. Yet it is no unusual sight to see a mother, with babe in arms, coughing violently and exhibiting all the symptoms of a consumptive tendency. And why should this dangerous condition exist, dangerous sick to mother and child, when Dr. Boche's German Syrup would put a stop to it at once? No mother should be without this old and tried remedy in the house—for its timely use will promptly cure any lung, throat or bronchial trouble in herself or her children. The worst cough or cold can be speedily cured by German Syrup; so can hoarseness and congestion of the bronchial tubes. It makes expectoration easy, and gives instant relief and refreshing rest to the cough-racked consumer. New trial bottles, 25c; large bottle, 75c. At all druggists.—W. T. Brooks.

Report on the Cause of the Explosion on the Missouri.

It is Blamed on Smokeless Powder—An Unexpected Ignition of the Two Sections of the Charge in the Gun.

Washington, May 4.—By order of Mr. Darling, acting secretary of the navy, the full findings and opinion of the court of inquiry which investigated the accident of April 13 on board the battleship Missouri were made public at the navy department Tuesday with the announcement that action by the department was postponed pending careful consideration of the findings by R. Adm. George A. Converse, chief of the bureau of ordnance, who will make a full report on them. Textually the finding of the court reads:

"That the cause of said accident was the unexpected ignition of the two sections of the charge of smokeless powder, then in the gun, by what is termed throughout the proceedings a 'flare back,' a flame resulting from the ignition, in some manner not yet known, of residual gases attendant upon the combustion of the smokeless powder now in use.

"That the flame from these sections ignited the two other sections then in the ammunition car and that a shower of burning powder grains from those sections in the turret was projected down the open trunk which connects the turret with the 12-inch handling room, igniting there eight other sections of the smokeless powder, two charges of which had been taken out of the magazines and were in that place. That said accident in said vessel was on occasion named, in no respect due to fault or negligence on the part of any of the officers or members of the crew of said vessel.

"The court further finds that every officer and man in said vessel did his whole duty and in circumstances probably the most trying that can come to men afloat."

R. Adm. Barker, commander-in-chief of the North Atlantic fleet, in his review of the findings, declares that the navy has a smokeless powder "the properties of which have not been fully understood either by those using it on board our ships or by those who make and issue it for service."

"Rapid firing," he continued, "has brought to light some of these hitherto unknown or dimly perceived properties, but an exhaustive investigation in laboratory and in experimental firing on shore is still needed."

Adm. Barker says in the bravery displayed by the officers and men of the Missouri:

"The disaster was appalling, but it developed heroes. History records no more heroic act than that of Monson, who crawled through a hole into the burning magazine to put out the flames. He calls attention to those points brought out in the testimony:

"1. Exhaustive inquiry as to the nature of the gases given off by smokeless powder which remain in the gun or cartridge cases and whether or not these gases can be prevented.

"2. Whether it be possible to arrange the interior of turrets so as to separate one gun from another, but both from the handling rooms, making accidents from exploding shell or burning powder improbable if not impossible."

"Vitches" Have No Monopoly.  
The fun poked at Russian names is  
rather provincial. Many English proper  
names must seem quite as odd and mirth-  
provoking to the Russians as theirs do  
to us. No Russian would write "Chol-

or "Beechamp" and call it "Beechem." And what would a Russian of cultivation  
say to the Virginia family "Enoughy,"  
who pronounce it "Darby?"—Mexican

Until Too Stiff to Bend Over.

"When I drank coffee I often had sick  
headaches, nervousness and biliousness  
much of the time but about 2 years  
ago I went to visit a friend and got  
in the habit of drinking Postum.

"I have never touched coffee since  
and the result has been that I have  
been entirely cured of all my stomach  
and nervous trouble.

"My mother was just the same way,  
we all drink Postum now and have  
never had any coffee in the house for  
2 years and we are all well.

"A neighbor of mine, a great coffee  
drinker, was troubled with pains in her  
side for years and was an invalid. She  
was not able to do her work and could  
not even mend clothes or do anything  
at all where she would have to bend  
forward. If she tried to do a little  
hard work she would get such pains  
that she would have to lie down for  
the rest of the day.

"I persuaded her at last to stop  
drinking coffee and try Postum Food  
Coffee and she did so and she has used  
Postum ever since; the result has  
been that she can now do her work,  
can sit for a whole day and mend and  
can sew on the machine and she never  
feels the least bit of pain in her side  
in fact she has got well and it shows  
coffee was the cause of the whole  
trouble.

"I could also tell you about several  
other neighbors who have been cured  
by quitting coffee and using Postum  
in its place." Name given by Postum

one of the policemen answered, gently.  
"What for?"  
To take you to the hospital."

Beppo studied him searchingly.  
"That's where they cut people up," he  
said, steadily.

"Where they cure people."

"Where they cut them up," the boy  
persisted. "I know a man who went  
and had his hand cut off."

"Perhaps he'd have died if they  
hadn't cut it off. Wouldn't you rather  
lose a hand or foot than die?"

There was a quiet, indrawn breath.  
But that was the only sign of emotion  
Beppo showed.

"Can I come back to-morrow if they  
cut off my hand or foot?" he demanded.

"Of course, it'll hurt, but I don't care  
for that."

"No, not to-morrow—not for several  
weeks, I'm afraid. But if all goes well,  
you'll come back some time. Can we do  
anything for you?"

Beppo did not answer for some  
minutes. His gaze left them and sought his  
push cart.

"I s'pose you'll have to take care of  
that," he said, presently. "The fruit  
won't keep, of course, but maybe you  
can sell it to somebody for half price.  
And there's another thing. You know  
where I live?"

"No."

Beppo's gaze wandered again until it  
found a very small boy peeping at him  
with frightened eyes from behind a bystander.  
It was one of his old friends.

"Hello, Swipesy," he called, forcing a  
sudden gaiety into his voice. "Don't  
you look so scared, boy, I'm all right."

Then to the policeman who had bought  
fruit from him: "Swipesy'll show you  
where I live. He knows. He stayed  
with me once. You'll sort of look out  
for my folks till I get back. I'll pay you.  
The car'll sell for something, and then  
there's the fruit, and I've got ten dollars  
saved up in the boys' bank. You keep  
count of every cent you spend," sharply.  
"cause I'll pay. There's the am-  
bulance now, I s'pose," as a wagon drove  
up rapidly, turned, and then backed to  
the curb. "Well," his voice still steady,  
"I'm all ready. Sorry I can't take you  
to ride with me, Swipesy, but 'twouldn't  
be any fun for you."

As soon as he was off duty the police-  
man went with Swipesy to Beppo's home.  
What he saw he reported to the com-  
panion of his beat the next day.

"Seven sick boys," he snorted, in order  
to keep his voice steady, "and three  
of 'em cripples, and the oldest not over  
ten. One cripple told me he'd been with  
Beppo ever since he could remember.  
And I called that boy a young miser! Seem-  
s like he's been picking up weak  
and sick boys and taking care of them  
just like an old maid gathers up cats,  
and he commenced when he wasn't much  
more than a baby himself. Maybe he  
was remembering his own hard start."

The policeman walked on by his friend's  
side for a half block in silence, then added:

"Bellew, the department store man  
on the next block, asked me about him  
just now, and when I told all I knew, he  
said for me to bring Beppo to him just  
as soon as he got out the hospital, that a  
boy with nerve and head like that had  
no business to be pushing a fruit cart  
round. I wouldn't wonder if he tried to  
get Beppo into something better."

Two months later Beppo presented  
himself at the police station. On leg was  
gone, and he was hobbling on a crutch  
which the hospital had given him, but  
which he declared he should pay for.

"My car here?" he asked.

"Yes."

"Well, I want to sell it for what I can  
get and let it help you folks up. I'll  
pay the rest before long. I don't s'pose  
the cart's rotted down from old age yet,"  
gaily.

"What do you intend to do, Beppo?"

"Don't know," sturdily; "something.  
Of course," glancing down at the crutch,  
"I can't push a cart and things like that.  
S'pose likely I'll hire a hand organ, and  
stand round corners. Even one-legged  
folks can turn cranks."

"Would you like to do that?"

"Course not," sharply. "Don't ask  
so many fool questions. It's a case of  
most."

"I suppose so," calmly. "But there's  
a man up the street who wants to see  
you first, Beppo. We'll talk about the  
cart and hand organ afterwards."

Mr. Bellew was busy at his desk when  
they were shown into his office, but he  
turned promptly, and held out his  
hand.

"Glad to see you, Beppo," he said,  
briskly. "I want to talk with you about  
your future."

"Don't want any help, if that's what  
you're after," anticipated Beppo.

"Certainly not. I never help a boy  
who wants help," imperceptibly. "This  
is pure business. You can be of use to  
me, but you must have training first.  
What could you do by yourself with but  
one leg?"

"I've got arms."

"Yes; but arms are badly handicapped  
without legs to assist them. No, no, my  
boy; you must depend on your head  
now. And from what I've heard your  
head is fully as good as your arms and  
legs ever were, only it must have a whole  
lot of training. Four or five years of  
schooling—of training—and you will be  
ready for work that will pay you better  
than your push cart ever did. And in  
the meantime I will look out for the  
boys at your home."

"Can I pay for it?" suspiciously.

"You've got to. I will see to that. I  
shall keep account of everything, and  
will make you sign notes to pay me in  
full, with five per cent. interest. And  
you must pay me as soon as you get to  
work. But I warn you, the four or five  
years' training will be very hard work,  
so hard that many boys would shrink  
from it. Do you think you can stand it?"

All the suspicion left Beppo's face.

"Course," he answered shortly. "I'm  
not afraid of any kind of work. I'll do  
that training, and I'll do it the best I  
can. Only you must let me sign them  
notes just as fast as they're swed. And  
mind: If I sign, I'll pay."

**"PERU-NA, A VALUABLE PREPARATION,"  
WRITES DR. KEMBALL.**

Most of the Ailments Peculiar to the  
Female Sex are Due to Catarrh  
of the Pelvic Organs.

Rachael J. Kemball, M. D., 334  
Virginia St., Buffalo, N. Y., is a  
graduate of the University of Buffalo,  
class 1884, and has been in the practice  
of medicine in that city since  
then. She writes as follows:

"My conviction, supported by  
experience, is that Peru-NA is a  
valuable preparation for all catarrhal  
affections. I have taken one bottle  
of Peru-NA myself and just feel fine.  
I shall continue to take it."—Rachael  
J. Kemball, M. D.

Peru-NA has cured thousands of cases  
of female weakness. As a rule, how-  
ever, before Peru-NA is resorted to several  
other remedies have been tried in vain.  
A great many of the patients have taken  
local treatment, submitted themselves  
to surgical operations, and taken all  
sorts of doctor's stuff, without any  
result.

The reason of so many failures is the  
fact that diseases peculiar to the female  
sex are not commonly recognized as  
being caused by catarrh. These organs  
are lined by mucous membranes. Any  
mucous membrane is subject to catarrh.

Catarrh of one organ is exactly the  
same as catarrh of any other organ.  
What will cure catarrh of the head will  
also cure catarrh of the pelvic organs.  
Peru-NA cures these cases simply because  
it cures the catarrh.

Most of the women afflicted with

catarrh have no idea that their  
trouble is due to catarrh. The majority  
of the people think that catarrh is a dis-  
ease confined to the head alone.

This is not true. Catarrh is liable to  
attack any organ of the body; throat,  
bronchial tubes, lungs, stomach, kid-  
neys and especially the pelvic organs.

Many a woman has made this dis-  
covery after a long siege of useless treat-  
ment. She has made the discovery that  
her disease is catarrh, and that Peru-NA  
can be relied upon to cure catarrh  
wherever located.

If you do not derive prompt and satis-  
factory results from the use of Peru-NA,  
write at once to Dr. Hartman, giving a  
full statement of your case, and he will  
be pleased to give you his valuable ad-  
vice gratis.
